

## FusionWorks Pro Hoteling

Any Shared Phone Acts as Your Own

### SAVE TIME, MONEY AND OFFICE SPACE WITH FUSIONWORKS PRO HOTELING FEATURE

Do your employees frequently share phones and workspaces? If so, you can save money and valuable office space by using the Hoteling feature on your Fusion Connect phone. With Fusion Connect's Hoteling feature, any shared phone will act as your own. Users can access all specific phone features, phone numbers, and usage plan capabilities upon logging into a Fusion Connect shared phone. DID and voicemail settings are accessible as well.

#### Traveling to a remote or alternative office location? Boost Productivity.

If you are frequently on the go, having your phone is essential but not always realistic. The FusionWorks Pro Hoteling feature is a trusted solution that will boost your productivity with limited downtime.

**Here's how it works:** Upon arrival to a remote office workspace, log into your guest phone by selecting the login softkey and inputting your credentials, which is your assigned phone extension. Simply, enter your login information and press login to reboot the phone. Once the phone reboots, it will mimic your regular desk phone. Your DID, extension, voicemail, and contacts will now appear on the phone you've logged into just as they would in your main office. When you are ready to leave your assigned guest workspace, simply press the logout softkey. The phone will reboot to its original state and will be ready for use by another guest.

#### Various Setup Options Available with FusionWorks Pro Hoteling Feature

##### Option #1:

Fusion Connect will set up a primary phone for each employee, however only a select list of employees will be provided with the hoteling feature. The hoteling feature will be granted to employees as needed, based on their managers' discretion.

##### Option #2:

Fusion Connect will set up a primary phone for each employee as well as login credentials to enable the hoteling feature. Users will be required to login to their phones on a daily basis and logout at the conclusion of each day. All users can utilize dedicated hoteling enabled phones.

##### Option #3:

Need a custom setup? Contact Fusion Connect to take advantage of our unique hoteling opportunities today!
