

## FusionWorks Pro UC

Connect to anyone, anywhere,  
on any device

FUSIONWORKS PRO UC ALLOWS YOU TO CONNECT AND COLLABORATE. ANYTIME. ANYWHERE. FROM ANY DEVICE.

### Presence & Instant Messaging

- See when your contacts are available
- Conduct one-on-one or group IM chats
- View presence from within Microsoft Outlook, and click to chat, text or call

### SMS Text

- Send/receive SMS texts to/from contacts with mobile numbers from any device

### Desktop/Screen Sharing

- View and manage participant capabilities: assign video, presenter control, turn mic on/off, room-wide muting and unmuting, lock participants from changing mute settings and more.

### HD Video and Voice Calling

- Easily and intuitively share video and content with colleagues, customers and peers in 1080p HD video quality.

### Connect on Any Device

- Join or run meetings from wherever you are, on any device. Hosting and presenter capabilities are supported on any device that has the FusionWorks Pro UC app installed. Join using the app or a web browser.

### Audio and Video Conferencing

- Each user is provided with a dedicated virtual meeting room, making it easy to schedule meetings on the fly, or recurring meetings, without having to check for overbooking.
- One-click can start a collaboration session or add it to an Outlook calendar invite eliminating the need to enter pin codes, conference IDs, or passwords.
- Video layout, quality and camera selection can be optimized during a live session.
- Flexible pass-presenter controls and video floor assignment capabilities
- Easy Guest participation via browser or client. With client, guests enjoy the same functionality as an internal user, including screen share and presenter controls for seamless collaboration.
- A participant list shows conference members who are attending, leaving or joining the session. The list also depicts voice activity and audio detection below the conference member's avatar.
- Network recording can be set up for the host to record both audio and video of the conference. The audio portion of a conference can be recorded locally by any participant.

## The Fusion Connect Advantage

### Single Source for the Cloud

Fusion Connect offers a full range of cloud communications, cloud connectivity and cloud computing solutions – available nationwide.
